ABOUT US

Young & Thurman LLC is a Veteran-Owned Small Business (VOSB) providing end-to-end technology, data, and operational support services. With deep expertise across modern software and data ecosystems, we support federal missions through AI/ML development, application development, database management, and data labeling services that enable scalable, data-driven decision-making.

We also deliver technology staffing solutions and billing and invoicing services, ensuring continuity of operations, compliance, and efficient program execution. Our approach emphasizes security, quality, and alignment with federal standards and agency objectives.

WHY CHOOSE US?

Young & Thurman LLC is a veteran-owned small business (VOSB) founded and operated by former Silicon Valley engineers. We bring an end-to-end understanding of data production, software development lifecycles (SDLC), and system deployment, informed by deep strategic, operational, and tactical expertise.

Leveraging modern, secure, and scalable technologies, we deliver mission-aligned solutions that enhance efficiency, reliability, and innovation for government and enterprise clients in an evolving digital landscape.
